PROJECTS

DAREBEAR
https://darebear.herokuapp.com
-A fun party game allowing users to challenge each other in unique dares. Built with Vue and Javascript, utilizing websockets.

NEATUREBAORD
https://neature-board.herokuapp.com
-A "trello" inspired board where users can create custom lists, track tasks and maintain daily organization. Built with Vue and Javascript.

BLOCKR
https://github.com/KristinaTodd/block-r
-A "Pinterest" style site where users can save pictures and store them in groups. Built with Vue and C#.

PROFILE

Passionate about software development, including front and back end. Loves taking on new tasks and challenges. Takes pride in her work and loves finding new ways to solve problems. Hoping to work for a company where continued learning and personal development are valued.
